Professional Summary

Unity Developer with 4+ years of experience creating games and interactive experiences for mobile, PC, and web. Generalist across the full production cycle, from prototyping to final delivery, with a strong focus on user experience, product quality, and polished interactions.

Experienced in Unity 2D/3D and C#, combining development and UX Design to create clear, intuitive, and enjoyable experiences. Detail-oriented approach to gameplay, visual feedback, responsiveness, game feel, usability, and how each interaction is perceived by players or end users.

Contributed to 30+ projects across different stages of development, including educational games, interactive experiences, web-based interfaces, and projects for brands such as Itaú, TIM, and McDonald's.

Professional Experience

Mid-Level Unity Developer

Aioros Studios, April 2022 – Present | Belo Horizonte, Brazil

Game studio focused on interactive games, educational experiences, and digital activations. Working as a generalist Unity Developer across the full production cycle, from prototyping to final delivery.

- Contributed to 30+ games and interactive experiences for mobile, PC, and web
- Developed gameplay systems, interactive features, interfaces, animations, and visual feedback in Unity using C#
- Improved usability, responsiveness, game feel, and interaction clarity through testing, debugging, and iterative polish

- Collaborated with designers, artists, and multidisciplinary teams to integrate assets and refine the final user experience
- Built and maintained web interfaces using HTML, CSS, and JavaScript
- Contributed to projects for brands such as Itaú, TIM, McDonald's, Despicable Me, and Rock in Rio

Highlight:

- Transitando Legal Digital - ELAN Award 2024 winner in the Game category and featured as "Teacher Recommended" on Google Play

Game Development Intern

Minas Educa, August 2021 – April 2022 | Belo Horizonte, Brazil

- Developed educational games using Construct 3 based on game design documentation
- Implemented gameplay logic, UI elements, animations, and interactive features
- Integrated assets and ensured consistency with design specifications
- Performed functional testing, debugging, and bug fixing

Technical Support Intern

Construsite Brasil, April 2021 – August 2021 | Belo Horizonte, Brazil

- Provided technical support for web platforms, assisting users with usability and issue resolution
- Supported website delivery, setup, and configuration for clients
- Troubleshooted technical issues and communicated solutions clearly to users
